

Paper ID 110

Development of an FPGA Based Real-Time Simulation System for DC-DC Boost Converter

Enver ÖZKAN was born in Sakarya in 1995. He received his bachelor's degree from Marmara University, Istanbul, Turkey in 2017. He is currently continuing his master's degree at Gazi University, Faculty of Technology, Department of Electrical and Electronics Engineering, at the thesis stage. He works as a freelancer on project-based jobs. His research interests include power electronics, FPGA-based systems and signal processing.
