Navid Bayati received the M.Sc. degree in electrical engineering from the Amirkabir University of Technology, Tehran, Iran, in 2017 and the Ph.D. degree in electrical engineering from Aalborg University, Aalborg, Denmark, in November 2020. He was a visiting researcher at Loughborough University, UK, in 2019. In 2021, he was a Postdoctoral Researcher with the University of Southern Denmark, Odense, Denmark, where since 2022, he has been an Assistant Professor on power system protection. His research interests include power system protection, DC microgrids, and fault detection as well as hardware-in-the-loop simulations by dSPACE and OPAL-RT.
