

CURRICULUM VITAE

Name Surname : Oğuzhan ÖZÇELİK

E-Mail : ozcelik21@itu.edu.tr

I received my Bachelor's degree from Yıldız Technical University. My graduation project involved designing a droop-controlled buck converter. Since 2021, I have been pursuing my master's degree at Istanbul Technical University, with a thesis focus on low-voltage DC distribution networks. Currently, my primary focus is conducting Electromagnetic Transient studies using PSCAD, including insulation coordination, protection system design, fault analysis, and power electronics converter control and protection design.
