

Presenter Information

Paper ID and Title:

Fahad Ali Aljohani is a final year Electrical Engineering student at the Islamic University of Madinah (IU) from 2019-2024. During his studies, Fahad led teams in the design, simulation, and presentation of various electrical engineering projects. He co-founded a tutoring club to assist students in electrical engineering courses. Fahad also interned as a project management intern in the Distribution & Terminal Projects Dept at Saudi Aramco. His research interests are in smart grids, renewable energy, power system protection, and substation automation/control.
