

Paper ID : 186-AI-Enhanced Velocity Prediction for Efficient EV Energy Management with Hybrid Storage

Presenter

Dr. Akash Kadechkar was born in Vasai, India, in 1991. He received the B.E. degree in electronics and telecommunication from University of Mumbai, India, in 2012, and the M.S. degree in telecommunication, system and networks from Universitat Politecnica de Valencia in 2016, and an industrial Ph.D. degree in Electrical Engineering from Universitat

Politecnica de Catalunya in 2020. His research interests include Internet of Things and Data Science applied to energy management, fault detection and predictive maintenance purposes. He has work experience of 8+ years in research, innovation and engineering across multidisciplinary fields. Currently, he is working for NVISION Systems and Technologies as an Principal R&D Engineer.
